SCHOOL OBSERVATION

ASSEMBLY DETAILS AND PHOTOS:

The best way to start a day in school is the morning assembly. The best part about the morning assembly is the birds who gather in the trees to listen to the prayer and sing along with us. The music teacher would be playing the instruments on the stage along with the main choir team, and we will be repeating after them. It is a sight to see everyone standing in queues and the class teachers standing with the class monitor. I have a lot of good and bad memories of my school, and the best memories are created during the morning assemblies.

Inculcates the spirit of unity:

The Assembly ground of a school seems like a rainbow having all colors of different ages, cultures, classes, religions, sex, etc. Students are allowed to converse and mingle without any discrimination. Assembly ground offers students a chance to know about different types of personality. This delivers a feeling of unity to students for their whole life.

Helps to understand the school system:

Morning assembly presents a clear picture of the functioning of the school. It is a platform to discuss and announce various competitions, exams, educational tours, and ceremonies. Announcements made in the morning assembly make students aware of the upcoming events in school. They can understand the functioning of their school better by morning assembly.

SCHOOL OBSERVATION

ACTIVITY FROM (24TH APRIL TO 4TH MAY 2023)- REPORT AND PHOTO:

Engaging in extracurricular activities can help reduce stress, improve mood and provide a sense of purpose and fulfillment. It can also provide a sense of community, making students feel more connected and supported.

Taking part in extracurricular activities at school teaches life skills that aren't always taught at home or in school, like how to accept failure even when you think you deserve it. Students have an opportunity through extracurricular activities at school to learn about teamwork, develop strong communication skills, experience what it feels like to stand on stage in front of an audience, time management, and many more. They are also taught to cooperate without bullying others.

1. ART COMPETITION (27TH APRIL)

2. INTERNATIONAL DANCE DAY (29TH APRIL)

3. BUDDHA PURNIMA (4TH MAY but celebrated on 3rd may)

SCHOOL OBSERVATION

LEARNING STYLES AND METHODS:

PRE-PRIMARY

The Pre-primary wing of the school comprises classes of Pre-Nursery, Nursery, and Kindergarten and caters to the needs and demands of early childhood learning. Bearing in mind that at this age the foundation of a child's personality is laid and two-thirds of their intellect is formed, we have created an environment and a system of teaching which is entirely child-friendly. The classes have an exclusive domain and it is here that they learn social skills, free-play, develop the verbal ability and imbibe the skills and joy of creating things with their own hands through art and crafts which is an integral part of the curriculum. The curriculum is open-ended and focused on experiential learning. Formal learning of the three 'R's is introduced in Nursery. It finds a more prominent place in the Kindergarten curriculum which includes recognition, reading and writing of Hindi and English alphabets, small words and basic mathematical concepts. Environmental studies are taught with project-based activities and Life Skills are taught to make students more adaptable to different situations.

The focus in Kindergarten is on cognitive development and enhancement of language and interpersonal skills. Children are sensitized to social, cultural concerns and encouraged to think, reflect on issues and arrive at their own solutions. The main objective of the curriculum is to enable children to communicate effectively, develop integrated skills and creativity; for them to grow as confident and independent individuals.

SCHOOL OBSERVATION

PRIMARY (I-V)

The syllabus becomes more broad-based at this level and gradually the young learners are exposed to a wide range of subjects and study material which is suitably graded in accordance with the CCE. Apart from Math, English, Hindi, E.V.S. and Computer Education subjects like General Knowledge are also taught. As early as class I, students learn to work on computers in the Multimedia Lab which has been specially equipped to meet the needs of the young learners.

A plethora of choices given to the students for their Work Experience classes ranging from pottery to public speaking, cookery to clay modeling. Last but not the least in order to inculcate moral values and general awareness among students, interactive sessions are held in the Life Skills classes.

The teaching of all the subjects is done by using different teaching tools. This audio-visual method makes learning a joyful experience for students.

SCHOOL OBSERVATION

TEACHING METHODOLOGY

Green Field Public School, the goal of education is the advancement of knowledge and the dissemination of truth. The methodology of teaching at the school is as follows:

Authentic

To draw on the learner's strengths and interests. Material and resources are drawn from and connected to real world.

Interactive

This fosters participation and collaboration and allows the learner to interact with the real world.

Learner-Centered

This provides opportunities to learn through discovery which helps the learners to be the creators, thinkers and problem solver. This also includes the learner in the development of lessons and assessment process.

Continuous

Provides the learner an opportunity to acquire knowledge in a more holistic way. It builds on a variety of disciplines and learning environments.

Process-focused

Subjects are taught as ways of thinking which rests on Intelligent Behaviours. It helps the learner to apply thinking models and diverse strategies and develops communication capacity.

Integrated

Teaches national consciousness and orientation in relation to India.

BLENDED LEARNING

Blended learning is the future. Technology will become an integral part of learning, tracking, reporting, refining, and achieving. Data and evidence tracked digitally will be ever at hand to support the learner and the teacher in chartering and altering courses as they embark on this journey of learning. This also lends objectivity and transparency not only to the teaching learning processes but also academic governance.

The availability of Information, Communication Technology infrastructure at the school and the learner end would be essential. The conventional paper books will be gradually replaced and or supported by the tablet or laptop-based books and would at once open flood gates to all other resources thus presenting the learners with choices of learning routes, breadth or depth.

Designing and Managing learning would thus be a competency that every teacher and student would need to develop and refine.

Examples of Learning Resources

- Textbooks
- Workbooks
- Programmed materials
- Computer
- Television
- Programs
- Flat Pictures
- Slides and Transparencies
- Maps
- Charts
- Cartoons
- Posters
- Models
- Mock Ups
- Flannel Board Materials
- Chalkboard
- Real objects

LESSON PLAN:

Building the lesson plan outward from your learning goals also offers much-needed flexibility in adapting instructional delivery and classroom management during uncertain times. Classes that move from onsite to online or hybrid require different delivery methods, requiring adjustments to existing plans. Such situations highlight the importance of lesson planning in keeping the class moving smoothly from task to task regardless of the learning environment. Advance lesson planning also minimizes the need for discipline and allows you to make the most of your time with students.

SCHOOL OBSERVATION

SCHOLARSHIP PROVIDED:

A **scholarship** is a form of financial aid awarded to students. Generally, scholarships are awarded based on a set of criteria such as academic merit, diversity and inclusion, athletic skill, and financial need.

Scholarship criteria usually reflect the values and goals of the donor of the award, and while scholarship recipients are not required to repay scholarships, the awards may require that the recipient continue to meet certain requirements during their period of support, such as maintaining a minimum grade point average or engaging in a certain activity.

Green Field Public School also provide scholarships to the meritorious students to motivate them and to praise their hard work.

ENVIRONMENT RELATED INITIATIVE TAKEN:

Schools can have a programmes to adopt one plant in school and one at home and take pledge to provide complete care to it with the help of a gardener or parents and others.

Nature is beautiful and needs to be preserved. Nature, when taken care of, provides us with everything we need but it can also express its fury if abused. Lately we have been witness to the fury - with the forest fires, drought, excessive rainfall and its attendant problems. Excessive pollution and exploitation of resources is also causing immense environmental damage.

SCHOOL OBSERVATION

OVERALL OPINION ABOUT THE SCHOOL:

As per my point of view, Green Field Public School having the mission to develop well rounded, confident and responsible individuals who aspire to achieve their full potential. They believe in reaching it by providing a welcoming, happy, safe and supportive learning environment in which everyone is equal and all achievements are acknowledged and celebrated.

The pillars of this temple of learning were laid and registered by a committee of eminent educationists under the Presidentship of **SH. PRITHVI SINGH** with the motto 'LEAD ME TO LIGHT'. It caters the educational needs of all sections of the society. Teach one, teach all, is the inspiring spirit behind it to realize the dreams of life. Green Field Public School is an English Medium, Co-educational institution. Lush greens of this school are conducive to provide an environment that is essential to meet the intellectual pursuits and holistic development of nearly 3000 students.

The school provides courses in science and commerce, humanities streams of the senior secondary level. The school inculcates the morals of neatness, punctuality and discipline apart from promoting overall development of personality. The main emphasis is on best results academically as well as in sports. We are excellent at volleyball, netball, kabaddi, kho-kho, etc. we are the winners in many clusters.

The school runs under the worthy guidance of the Principal **DR. SUMAN KAUSHIK** whose motto is the education is not only about writing, reading, calculating but it also includes Head, Heart, Hand and Hobby. Education is a manifestation of perfection in man who has the potentiality to make progress and go ahead. Nurturing the needs of the school highly qualified staff works 24*7 to ensure all round development of all the students to become confident citizens of our country. The school's ideology work in tune with Gautam Buddha's teaching i.e, "APPO DIPPO BHAV" (Be Your Torch Bearer Yourself).
