Donation (Sunil Sharma MLA)

People and government are inextricably linked, and because political party serve as a conduit between them, they're always expected to be responsible to the public at large.

To encourage more contributions towards political parties, there is a provision of exemption from taxation under Section 80GGB..

REPORT

RCCV Girls College organized NSS camp on the topic of feticide and women empowerment. Students participated in the camp enthusiastically and made people aware about the killing of women and empowerment of women.

Staging a street theater in Guldhar village, the students gave the message that women empowerment is possible only by being educated and aware of women. Murder killing will be controlled only then. Today we talk of women empowerment, yet female feticide cases are increasing. After the new technique of ultrasound, cases of female feticide have increased more rapidly. We have to understand that there is no difference between son and daughter today. Daughter is getting success in every field. Therefore, the daughter will have to study with saving, only then the society and the country will be able to develop. College CEO Aditya Kaul, Principal Dr. Neetu Chawla, Registrar Shashi Khanna etc. were also present.

REPORT

A group of NSS volunteers conduct a nukkad natak on bhartiya sanskriti. In the modern era, cultural values are declining among the youth. Due to ambitions, young people often ignore the archaic Indian culture, whose crisis entangles them in the future. A similar story was presented by theater artists through their play 'Bharat Desh Mera'.

1. What is the role of an Image Manager; from where can I pursue this course?
Riya, BBA

Priyanka Sadhna

Image Management is all about creating and projecting the right image. It includes physical, psychological and social aspects of projecting a winning image and creating powerful everlasting impressions. The course helps aspiring candidates to evolve as an image consultant after rigorous training sessions. They help their clients in building the brand 'You' by focusing on appearance, communication, and behavior. The ultimate goal of the training is to evaluate, improve and enhance self-presentation in personal, social and professional settings. However, one should also understand that each person requires a personalized set of solutions according to his or her needs. There are various Image Consultants in India (such as ICBI) and abroad who offer services in this domain. Image Consultants usually charge anywhere between Rs. 1,500 to Rs. 9,000 per hour and Rs. 15,000 to Rs. 50,000 per day for training assignments in corporate and educational institutes. By becoming an Image Consultant, you have the privilege of helping others and improve their Image Quotient.

2. I am considered versatile in various areas, what aspects should I consider for making career choices? Anonymous

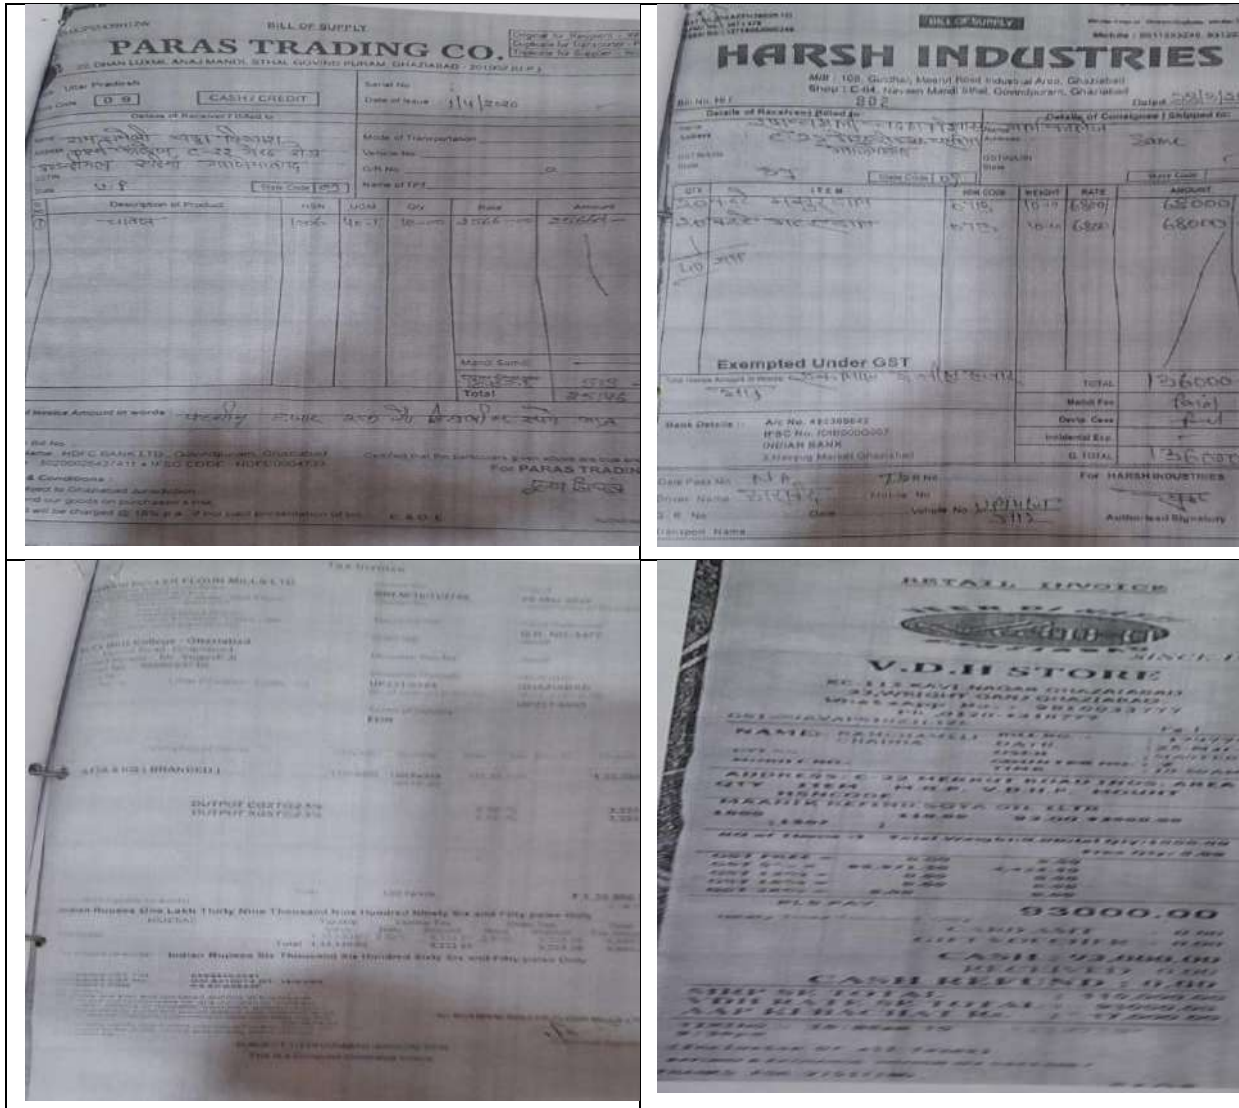

It's good to hear that you are versatile as it is now one of the key to effective leadership. You may identify your career sweet spot by understanding three things- interest, skills & abilities and personality types. Robust insights into a person's interests help to consider major career potential. Skill and knowledge refer to the technical competency involving knowledge about the specific domain. Personality type will help you to identify your strengths and recognize your weaknesses, as well as those of the people around you. The intersection of your interests, skills and personality type will help you to figure out the opportunities that are suitable to you and can help you in making a promising career ahead. For instance, if you are deeply inclined towards helping others, have influencing personality and are knowledgeable about policies relating to employment, you may be suitable for the profile of Human Resource Manager or Human Resource Specialist.

3. Is it good to answers all the questions honestly in an interview? Ravi, BBA

Usually, in interviews, everybody tries to show their best versions. However, it is still better to say 'I don't know' if you do not know the answer rather beating around the bush and giving inappropriate answers. By exhibiting honest answers, there are chances of you to land in a job that is suitable for you. Employers know that nobody is perfect; there is always a scope of betterment, they will be happy to see you as a self-aware person who knows his set of capabilities and willingness. So it's advisable to answer the questions smartly and provide a problem-solving approach while answering.
